Profile

Communication designer specialised in exhibition and experiential design, working across event and visual design. I translate cultural and brand content into spaces, objects and graphics designed for the widest possible audience, from exhibition graphics to multisensory, accessible installations. My MSc thesis at Politecnico di Milano focuses on tactile and inclusive exhibition design, and I have worked on projects for the Venice Biennale 2025 and the Loro Piana Global Summit.

Expertise

Exhibition and spatial graphics
Accessible and multisensory design
Event visual systems
Large-format and OOH
Editorial design
Brand identity
3D modelling and visualisation

Education

Politecnico di Milano
MSc Communication Design
Sep 2024 – present

Politecnico di Torino
BSc Communication Design
Oct 2021 – Sep 2024

Experience

MSc Thesis Researcher & Exhibition Designer
Spazio Geco società cooperativa · Pavia's University Library
Apr 2026 – present

- **Visitor research:** analysed the library's exhibition spaces and visitor behaviour to redesign its interactive stations and improve the flow through the space.
- **Accessible exhibition stations:** designed the graphic interfaces and on-site touchpoints of the stations, ensuring barrier-free navigation and clear reading for diverse visitors.
- **Tactile and multisensory design:** developed tactile panels and tangible objects that translate the manuscripts on display into multisensory experiences.

Brand and Communication Designer
CBA Design Italy · Milan
Jan 2026 – present

- **Large-format and OOH:** designed out-of-home campaigns, including stadium installations, and institutional materials for international corporate clients.
- **Brand systems:** extended the visual identities of HR and corporate welfare companies across brochures, advertising and commercial presentations.
- **Motion:** designed motion graphics for social media campaigns.

Communication & Editorial Design Intern
T12 Lab · Milan
Jun 2025 – Dec 2025

- **Venice Biennale 2025:** designed visual and hands-on materials for a children's workshop held during the Biennale, making the content accessible and engaging for a young audience.
- **Editorial design:** designed the layout and typesetting of Crossing Kyiv, a publication by NO MAD on contemporary Ukrainian creativity, under the supervision of my tutor.
- **Branding and multimedia:** developed visual identities and multimedia content for crowdfunding campaigns, from concept to final cut.
- **Cultural and social initiatives:** managed digital and physical touchpoints for cultural and social impact projects.

Visual Designer
Loro Piana Global Summit
Jun 2024

- **Event visual system:** designed the presentation graphics for the global summit of a luxury brand, in line with its identity and addressed to executive stakeholders.
- **Live event:** managed the delivery of digital assets and visual content during live broadcasts, working under real-time pressure.

Communication Design Intern
DCode · Turin
May 2024 – Jul 2024 · 300 hours

- Designed brand identities, custom patterns and pitch presentations for corporate and luxury clients.

Selected projects

Oltre la teca di vetro

Exhibition design, accessibility and visual identity
Individual MSc thesis · Politecnico di Milano · 2026

- **Audit and strategy:** analysed the existing exhibition of Pavia's University Library and turned its issues into thirteen design principles for one experience shared by sighted, partially sighted and blind visitors.
- **Identity and space:** designed a visual identity set in Atkinson Hyperlegible, a bilingual grid for vertical and tactile panels with Braille, and a new route of seven stations, presented through 3D renders.

Oltre l'ascolto

Multisensory and accessible design
Group of 5 · Politecnico di Milano · 2025

- **Tactile artefacts:** developed the concept of the tactile artefacts and made them, translating the morphology and sound of three historic instruments of the Studio di Fonologia Musicale RAI (Tempophon, Speed Variator, Amplitude Modulator) into patterns to touch.
- **Accessible sound experience:** contributed to an animated video that makes sound perceivable through sight, touch and vibration, and studied Braille to make the accompanying texts accessible to blind and visually impaired visitors.
- **Exhibited** at Accessibility Days (Istituto dei Ciechi di Milano), at Politecnico di Milano (Inclusion: oltre l'udito) and at BookCity Milano (RAI CPTV).

Sovrapposizioni

Exhibition concept and editorial design
Group project · Politecnico di Milano · 2024

- **AI image generation:** generated the images of twenty works reinterpreting the visual languages of Kusama, Hockney, Warhol, Monet, Modigliani, Canaletto, Murakami and Degas, for an exhibition concept on authorship and AI designed for MEET Digital Culture Center.
- **Editorial system:** designed and laid out the book, brochure and postcards that extend the exhibition beyond the gallery.

Marco Magnani Art

Brand identity and art direction
Individual · 2025

- **Positioning:** presented a hyperrealist painter to the high-end interior design and architecture market, treating each painting as a piece chosen for a room.
- **Visual system:** redrew the logotype from the artist's handwritten signature and built a type system scaled in multiples of three, collected in a brand manual.
- **Framing system:** irregular frames that show close-up details of the paintings, with a palette sampled from the work on display, shown in mockups.
