Portfolio: www.rossellamagnani.figma.site

Communication designer specialised in exhibition and experiential design. I translate cultural and brand content into spatial experiences, from exhibition graphics to multisensory, accessible installations. My MSc research at Politecnico di Milano focuses on tactile and inclusive exhibition design, and I have worked on projects for the Venice Biennale and the Loro Piana Global Summit.

Expertise

Exhibition & spatial graphics
Accessible & multisensory design
Event visual systems Large-format & OOH
Editorial design
3D modelling & visualisation

Education

Politecnico di Milano
MSc in Communication Design
September 2024 – Present

Politecnico di Torino
BSc in Communication Design
October 2021 – September 2024

EC English Language Centres Alumni
General English Intensive Program, New York.
Level achieved: Pre-Advanced, B2+
July 2021 - August 2021

Work experiences

MSc Thesis Researcher & Exhibition Designer
Spazio Geco società cooperativa | Pavia's University Library
April 2026 - present

- **Visitor research**: analysed the library's exhibition spaces and visitor behaviour to redesign its interactive stations and improve the flow through the space.
- **Accessible exhibition stations**: designed the graphic interfaces and on-site touchpoints of the stations, ensuring barrier-free navigation and clear reading for diverse visitors.
- **Tactile & multisensory design**: developed tactile panels and tangible objects that translate the manuscripts on display into multisensory experiences.

Brand and Communication Design
CBA Design Italy | Milan
January 2026 - present

- **Large-format & OOH**: designed out-of-home campaigns, including stadium installations, and institutional materials for international corporate clients.
- **Brand systems**: extended the visual identities of HR and corporate welfare companies across brochures, advertising and commercial presentations.
- **Motion**: designed motion graphics for social media campaigns.

Communication & Editorial Design Intern
T12 Lab | Milan
June 2025 - December 2025

- **Venice Biennale 2025**: designed visual and hands-on materials for a children's workshop held during the Biennale, making the content accessible and engaging for a young audience.
- **Branding & editorial**: developed visual identities, editorial projects and multimedia content for crowdfunding campaigns, from concept to final cut.
- **Cultural & social initiatives**: managed digital and physical touchpoints for cultural and social impact projects.

Visual Designer
Loro Piana Global Summit
June 2024

- **Event visual system**: designed the presentation graphics for the global summit of a luxury brand, in line with its identity and addressed to executive stakeholders.
- **Live event**: managed the delivery of digital assets and visual content during live broadcasts, working under real-time pressure.

Communication Design Intern
DCode (Turin)
300 hours, May - July 2024

- Designed brand identities, custom patterns and pitch presentations for corporate and luxury clients.

Technical skills

Spatial & 3D

Rhinoceros - advanced

AutoCAD - intermediate

Blender - intermediate

Graphic & editorial

InDesign - advanced

Illustrator - advanced

Photoshop - advanced

Motion & video

After Effects - intermediate

Premiere - intermediate

Digital & prototyping

Figma - advanced

Framer - advanced

Microsoft Office - advanced

Languages

Italian - native
English - IELTS Band 7 (2024)

Certificates

IELTS (International English Language Testing System)
Band 7, 2024

Relevant projects

Sovrapposizioni

Exhibition design & editorial system

- **Exhibition concept**: designed an exhibition of twenty AI-generated works reinterpreting the visual languages of Degas, Gauguin, Modigliani and Warhol, questioning authorship in the age of artificial intelligence.
- **Interactive layer**: integrated a smartphone scan on each piece that reveals the original artwork behind it, turning the visit into a dialogue between classical art and AI.
- **Editorial extension**: designed the exhibition's printed system, including a theoretical book, an introductory brochure and a series of postcards.

Oltre l'Ascolto

Multisensory & accessible exhibition design

- **Accessible sound experience**: designed an animated video that makes sound perceivable through sight, touch and vibration, inspired by the Studio di Fonologia Musicale RAI in Milan.
- **Tactile artefacts**: developed physical objects that translate the morphology and sound of three historic instruments (Tempophon, Speed Variator, Amplitude Modulator) into tactile patterns.
- **Braille & inclusive text**: studied Braille to make the accompanying texts accessible to blind and visually impaired visitors.

Marco Magnani Art

Brand identity & art direction

- **Positioning**: repositioned a hyperrealist painter towards the high-end interior design and architecture market, presenting each artwork as an "object-presence" within the space.
- **Visual system**: engineered a logotype from the artist's calligraphic signature and a geometric typographic system scaled in multiples of three.
- **Unveiling system**: designed an asymmetrical framing protocol for teaser and editorial formats, with a colour palette sampled from the pigments of the artwork on display.
